

# 2020 General Elections

All websites are the official websites of the candidates or websites directly affiliated to them through their respective parties. If there was no official website, no website was listed. Note, it is rare for candidates of judicial elections to have a website, so in many cases none was listed. Candidates are listed alphabetically; the order of candidates in no way implies a preference for any candidate. The list of candidates was compiled using official information from the Howard County Clerk of Courts and the Indiana Statewide Voter Registration System.

## National Races
